 This app is designed for both iPhone and iPad

 Offers Apple Watch App for iPhone

### Description

Venusaur, Charizard, Blastoise, Pikachu, and many other Pokémon have been discovered on planet Earth! Now's your chance to discover and capture the Pokémon all around you—so get your shoes on, step outside, and explore the world. You'll join one of three teams and battle for the prestige and ownership of Gyms with your Pokémon at your side.

Pokémon are out there, and you need to find them. As you walk around a neighborhood, your smartphone will vibrate when there's a Pokémon nearby. Take aim and throw a Poké Ball... You'll have to stay alert, or it might get away!

Search far and wide for Pokémon and items

Certain Pokémon appear near their native environment—look for Water-type Pokémon by lakes and oceans. Visit PokéStops, found at interesting places like museums, art installations, historical markers, and monuments, to stock up on Poké Balls and helpful items.

Catching, hatching, evolving, and more

As you level up, you'll be able to catch more-powerful Pokémon to complete your Pokédex. You can add to your collection by hatching Pokémon Eggs based on the distances you walk. Help your Pokémon evolve by catching many of the same kind.
